VOL. XIX., NO. 84.

THE BLAIRMORE ENTERPRISE, THURSDAY, AUGUST 23, 1928.

\$2.00 PER ANNUM

TENNIS TOURNAMENT

In the second tournament between Blairmore and Coleman tennis clubs, played at Blairmore on Sunday, August 19th, the Blairmore club edged the count by winning five out of the nine events played. Each club has won a match, so a third will be played at Coleman on August 26th. The winners will play Cranbrook for the C.N.P.L.T.A. shield.

The match on Sunday last ended disastrously for the Blairmore men, who lost all three of the singles played, the tournament being really won by the ladies. The results of the events were as follows:

Men's singles—Sgt. Jones lost to L. Lindoe, 6-4, 7-5; A. Hnatyshyn lost to J. Kwasney, 3-6, 6-4, 6-4; J. McPhail lost to J. McLeod, 6-3, 6-3.

Men's doubles—Hnatyshyn and Jones beat Lindoe and Kwasney, 4-6, 9-7, 6-2; McPhail and Foot lost to McLeod and Barnes, 6-2, 7-5.

Ladies' singles—Mrs. Kerr beat

Mrs. Borden, 6-0, 6-4; Mrs. Jones beat Mrs. Graham, 6-4, 4-6, 6-0.

Ladies' doubles—Mrs. Kerr and Mrs. Jones beat Mrs. Borden and Mrs. Graham, 6-4, 4-6, 6-4.

Mixed doubles—Mrs. Kerr and A. Hnatyshyn beat Mrs. Borden and R. Barnes, 6-0, 6-1.

A charge of either murder or manslaughter will be preferred against plainclothesman William Dinnen, of the Toronto police, as a result of the death of Albert Samson, struck by a bullet from Dinnen's revolver. Samson leaves a wife and six children and was fleeing with two others in a motor car when shot.

Mrs. W. T. Young and her mother, Mrs. Aitken, of Millit, arrived the latter part of the week from Vancouver, where they had been holidaying. Rev. Mr. Young leaves today by motor for Calgary, while the family took this morning's train for the same point.

SCHOOL BOARD MEETING

At a meeting of the Blairmore Board of School Trustees, held on Tuesday night, the action of the chairman in having refuse from the coal dumps dumped on the school grounds to help level up same, at a cost of 25 cents per load was concurred in by the board, and the chairman was authorized to have the work continued.

A contract was let with S. Enz, to have this coal dust covered with shale to a depth of from two to three inches. This work is to be completed before the re-opening of school.

So far, some four hundred loads of coal refuse have been dumped in the school grounds and when covered with shale and levelled off, the Blairmore grounds will be second to none in appearance in this district, and the board are to be commended upon having such necessary work accomplished at a minimum of cost.

A contract was also let with A. E. Knowles, of Coleman, to have the septic tank of the West Ward school cleaned out and re-covered, this work to be done at once.

The account of J. H. Hughes regarding painting was passed.

Results of examinations in Grades X and XI were considered, and the advisability of adding a Grade XII class occupied the attention of the board. As shown by the chairman, the cost of operation of a Grade XII room would be in the neighborhood of \$3000 for the first year, and as only two requests had been made for this grade, and only three or four others in town were qualified to take same, the various question arose as to whether the ratepayers were prepared to go to such expense for such a small class. It was finally decided to meet the Bellevue board, and, if possible, arrange to have the Blairmore aspirants for Grade XII, cared for at Bellevue, which arrangement would mean a very great saving to the ratepayers of Blairmore.

The Blairmore Board will meet the Bellevue Board to consider the matter tonight at 8 o'clock at Bellevue.

GRAND CHALLENGE CUP FOR BEST ALBERTA WHEATFIELD

Hon. George Hoadley, minister of agriculture, is offering a grand challenge cup to be competed for by first prize winners in field crop competitions held in Alberta during this year.

The judging of all these competitions will be completed in a few days, after which the challenge cups offered by the Edmonton Board of Trade and the Calgary Board of Trade will be decided upon.

Keen interest has already been taken in these contests and the announcement of winner of the grand challenge cup will be eagerly awaited.

Roddy McDonald is matched to fight Cecil Young at Brooks on September 2nd.

At the inquest into a fatal railway crossing accident near Beamsville, Ontario, the jury added the following rider to their verdict: "We are of the opinion that stop signs should be placed at every railroad crossing."

It's a good idea, or otherwise adopt the British Columbia system of warning signs three hundred feet from the crossings.

Inspector John Harrison, of the A.P.P., Drumheller, has resigned, to become manager of the Alberta Central Distributors, Limited, Drumheller's big wholesale coal and mine machinery and supplies company. His resignation takes effect September 15th, but he has asked to be relieved of his duties by September 1st.

Inspector Harrison was for a time in charge of the "farce" booze gate, west of Coleman, in Alberta's prohibition days.

COUNCIL GRANTS CONCRETE WALKS EXTENSION CONTRACT

At the regular meeting of the town council on Monday night, the tender of E. J. Pozzi for the building of concrete sidewalks and avenue crossings was accepted, the cost to be in the neighborhood of \$2700 to \$3000, the work to begin at once.

Thirty applications for the position of police and works foreman were considered, and after passing the picking table, were reduced to a matter of four or five. The council appointed a committee, composed of Messrs. Hamilton, McVey and Ferguson, to proceed to Lethbridge, and if necessary, Calgary, to look over some of the applicants. As a result of this mission, we understand Mr. William Duncan, at present on the city police staff at Lethbridge, will visit Blairmore this week end and size up the job. Mr. Duncan is very well recommended and has had considerable experience, both as a workman and police.

On motion, the resignations of Councillors Morgan and Patterson were not accepted. Both Morgan and Patterson were applicants for the position of police and foreman.

W. Peters' offer for the purchase of Lots 7 and 8, Block 25, Plan 203-AA, was accepted. Mr. Peters plans to erect thereon a six-room dwelling. The offer of Mr. V. Enid for a lot near his palace, south of the river, was also accepted.

A number of accounts were passed for payment.

Present at the meeting were: Mayor Farmer, Councillors Sartoris, Hamilton and McVey.

NEW BRITISH COLUMBIA CABINET

Premier Talmie has announced his cabinet as follows:

Premier and minister of railways—Hon. S. P. Talmie, Saanich.

President of council—R. W. Bryhn, Salmon Arm.

Agriculture—W. Atkinson, Chilliwack.

Attorney-general—R. H. Pasley, Esquimalt.

Finance—W. H. Shelly, Vancouver.

Education—Joshua Hinchcliffe, Victoria.

Provincial secretary—S. L. Howe, Richmond-Point, Grey.

Lands—F. P. Borden, Fort George.

Mines—W. A. McKinnon, Similkameen.

Public works—N. S. Loughheed, Dowdney.

Minister without portfolio—R. L. Maitland, Vancouver.

Speaker—J. W. Jones, South Okanagan.

The above cabinet has already been sworn in.

THOUSAND CARS A DAY

A recent tally of cars passing between Blairmore and Coleman showed 996 between 7:30 a.m. and 9:30 p.m. Count was not kept after the latter hour. These figures were for Sunday traffic. The week-day traffic showed an average of almost 600 cars. The record was kept by Mr. A. Beck, for the department of highways.

—Coleman Journal.

A grand concert, supper and dance will be held in the Kootenay hall at Natal on tomorrow (Friday) night. Considerable talent from this district will assist in the concert programme.

A merger of western breweries, involving Lethbridge Breweries, Limited, Prince Albert Breweries, Limited, Regina Brewing Company, Limited, and the New Edmonton Breweries, Limited, and a capitalization of five and a half million dollars, has been effected, under the name of Associated Breweries of Canada, Limited.

Fritz Sick, of Lethbridge, is president of the new concern.

VISCOUNT PEEL IS CHOSEN TO HEAD DELEGATES

London, Eng.—It is announced that in view of the appointment of Lord Halifax, first chancellor, as acting prime minister in the absence of Premier Baldwin, Viscount Peel has been appointed chairman of the United Kingdom's delegation to the meetings of the Empire parliamentary Association in Canada in the next few weeks.

Viscount Peel is first commissioner of works in the government and has held numerous appointments from 1900. He was under secretary of state for war from 1919 to 1924. He is 61 years of age. The prime minister having expressed a strong desire that the United Kingdom delegation should include two members of the government, the association has invited Hon. P. G. Williams, parliamentary secretary to the board of trade to join the delegation.

The delegation is expected to arrive at Quebec on August 24, and in company with other Empire delegations will make a transcontinental tour of the Dominion before leaving Sydney, N.S., on October 5.

Fatal Crossing Accident

Three Killed and One Badly Injured at Grade Crossing in Alberta

Calgary.—Three were killed, one fatally hurt, subsequently succumbing in hospital and one other dangerously injured in a crossing accident at the town of Okotoks.

The dead are A. J. Clarke, deputy sheriff of the town of Sunburst, Montana, his wife Jennie, and his two boys, Garry aged ten, and Lloyd aged four.

A daughter, Ada, aged about 15, lies in hospital in high risk in a precarious condition.

The party were touring on holidays and had been staying at Coult's Alta. They left there with the intention of driving to Calgary.

Within 27 miles of their objective they met tragedy, due, it is thought, to the driver being blinded by the oblique rays of the setting sun as he made his way in a north-westerly direction over the crossing.

Farmers Seek Relief

Nearly Million Dollars Damage From Floods in Southern Manitoba

Winnipeg.—One hundred and fifty farmers of the Sperling District in Southern Manitoba, claiming to have suffered loss of three crops amounting to nearly a million dollars this season as the result of floods, have directed an appeal to the government for drainage relief.

According to a spokesman for the distressed farmers, approximately 100 sections of land were inundated during June and July, destroying grain after it was in the head, and ruined grazing lands.

The government is being urged to reconstruct its drainage system in the affected area. Premier John Bracken and Hon. W. R. Chubb, minister of public works, following a trip of inspection of the flooded lands, promised early consideration of the request.

Record Crop in Australia

Prospects For One Of Greatest Crops In History

Victoria, B.C.—Australia as well as Canada is enjoying the prospects of the greatest crops in her history, according to Sir Joynton Smith, millionaire publisher and promoter of Sydney, N.S.W. who arrived here recently on board the liner Aorangi. "Australia's wool and wheat crop for 1928 will be the most immense the country has ever produced," said Sir Joynton. "I hesitate to suggest a figure to represent the vast yield, suffice it to say that we fully anticipate it to be a record in every way."

Mine Blast in Fatal

Calgary.—L. Johnson, for years chairman of the Department of Soldiers' Civil Re-establishment at Calgary, was instantly killed when a charge of dynamite exploded prematurely in Mr. Johnson's mine at Dodds, Alta., according to information received here.

Miners For Harvest Fields

The Pas, Man.—Men are stocking in from railway construction camps along the Flin Flon railway seeking higher wages in the harvest fields in the interior. Five hundred men have departed from The Pas on the last two trains going south.

W. N. U. 1747

Praises Pool System

Toronto Professor Says Pool Has Revolutionized Morale Of Farming Community

Williamstown, Mass.—Agricultural co-operation is not merely a marketing device but a means of lifting the farmer to a plane of greater prosperity and keeping him there, Prof. C. R. Fay, of the University of Toronto, told the Institute of Politics here.

"In Canada," he said, "the wheat pool has revolutionized the morale of the farming community, relieving the farmer of the difficulty of deciding when to sell, eliminating the pressure to sell at certain seasons, and basing all farm marketing on statistical knowledge."

The co-operative system he declared, is of special benefit to the small farmers, whose plane of living has been raised to the highest level it ever reached.

In the United States the government's attitude toward the farmer's problems is one of encouragement through active assistance in research and educational facilities. C. L. Christensen, chief of the department of co-operative marketing of the department of agriculture, said.

Receives Re-Appointment

Dr. McLean To Be Assistant Chief Commissioner Of Rail Board

Ottawa.—Dr. Simon J. McLean, Ottawa, has been re-appointed assistant chief commissioner of the board of railway commissioners. Dr. McLean's term of office expired August 6, and his re-appointment is for a further period of ten years. Dr. McLean was originally appointed to the board in 1908.

The term of Commissioner Frank Oliver will terminate toward the end of September, when Mr. Oliver will have reached the age limit of 75 years.

Dr. McLean drafted the Dominion Railway Act, and his re-appointment for a third term creates a precedent. Since the formation of the Board of Railway Commissioners in 1904, Dr. McLean has been the only commissioner to be re-appointed after expiration of the ten-year term.

While no official statement has been made in the matter, it is rumored that legislation may possibly be introduced at the next session of Parliament providing for the superannuation of members of the board.

Death Of Canadian Novelist

Mrs. Isabel Ecclestone MacKay, Dies At Her Home in Vancouver

Vancouver.—Mrs. Isabel Ecclestone MacKay, Canadian novelist, poetess and playwright, wife of Peter J. MacKay, official reporter of the Supreme Court of British Columbia, died at her home here after a year's illness. She was born in Woodstock, Ont., 32 years ago.

The late Mrs. MacKay was the daughter of Mr. and Mrs. Donald MacLeod MacPherson, of Woodstock, and came to Vancouver 19 years ago. She was the author of several novels, including "House of Windows," "Up the Hill and Over," "Min of Morning," "The Window Gazer," and "Glenarrow." Mrs. MacKay was also the writer of a book of lyrics, "Fires of Driftwood," and a volume of poems for children entitled "The Shining Ship."

She also wrote a number of plays which have been produced in Canada and the United States.

In addition to her husband she leaves three daughters.

Inspect Australian Ship

12,000 People Visit New Cruiser During Stay At Montreal

Montreal.—H.M.A.S. Australia, flagship of the Royal Australian Navy, sailed for Quebec following a visit of several days to Montreal. It is estimated that 12,000 persons visited the new cruiser while she was here.

The Australia will remain at Quebec four days, following which she will proceed to Halifax, which will be visited on August 22. Other places to be visited include Boston, August 26; New York, August 30; Chesapeake Bay, September 4; Colon, September 17; Tahiti, September 20; Wellington, N.Z., October 9; Brisbane, Australia, October 17; Sydney, N.S.W., October 22.

Will Visit Ireland

Washington.—Secretary of State Kellogg has practically decided to visit Ireland after signing the fifteen-year anti-war treaty in Paris, August 27, in order to return the call of President Cosgrave of the executive council of the Irish Free State, made during his visit to this country. It is not unlikely that Mr. Kellogg also will visit London.

Gold Strike In Ontario

Rich Find Is Reported In Vicinity Of Mine Centre

Toronto.—A special despatch to the Mail and Empire from Lechassault, Ont., says:

"Reports from Mine Centre, west of Port William, on the Canadian National Railway, bring word of what is described as a sensational gold strike made on the Johnson claims at that point. The claims are located north of the Foley mine of British-Canadian Mines, Ltd., and east of Little Vermilion Lake."

"A mining engineer returning from the scene of the strike says that the ore taken from the surface is glittering with visible gold which would run thousands of dollars to the ton, and is said to equal or even eclipse the remarkable find made on the Isabella property of Northern Red Lake Mines, Ltd., reported several weeks ago."

Message From Amundsen

Believe Note Found In Bottle To Be In Handwriting Of Lost Explorer

London.—Despatches to the Daily Mail from The Hague state that the Norwegian Minister at Amsterdam announced an apparently genuine message from Roald Amundsen, noted explorer who was last while participating in the expeditions seeking the crew of the wrecked Polar dirigible Italia, had been found in a bottle near Rottumeroog.

The message, which was compared with Amundsen's handwriting and was said to be authentic, gave the position of the explorer and his party on July 1.

Rottumeroog is in the Netherlands Islands in the North Sea.

Amundsen and four companions have been missing since they started in a French seaplane to search for the Italia party.

HON. PHILIP ROY RECOMMENDED AS ENVOY TO PARIS

Ottawa.—Hon. Philippe Roy has been recommended by the Dominion Government to His Majesty the King for appointment as Canadian minister plenipotentiary to Paris. Premier King has announced that Mr. Roy has been Canadian commissioner in Paris for the past 18 years.

No action to appoint a Canadian minister to Tokyo had yet been taken, the prime minister said.

It is expected that the formal commission for the appointment of Mr. Roy will be issued by His Majesty in time for the opening of the legation in Paris during the first week of October.

Mr. Roy was born on December 18, 1868, at St. Francois, Que., and was called to the Senate on March 8, 1906. He was appointed to Paris on May 1, 1911, being one of the administrators of the late Sir Wilfrid Laurier. Mr. Roy was also appointed agent general for the province of Quebec at Paris on January 15, 1912.

BRITISH STUDENT HARVESTERS

British university students seeking information, experience and adventure are coming to Canada to help with the harvest in the West this year and places for them are being found by the colonization department of the Canadian National Railways. If they are all of the type of the first four to arrive in the West both Canada and Great Britain should gain by their enterprise. The photograph shows the advance guard of four of these young men. From left to right, with the places where they are being stationed, they are: W. D. Harrison (Marcelin, Sask.); E. A. Corcoran (Weldon, Sask.); P. W. Beale (Carleton Place, Ont.); and J. D. Preston-Jones (Albany, Ont.).

Heads Native Sons Of Canada

Dr. J. H. Cotton, of Toronto, was elected president of the National Council of the Native Sons of Canada at their annual meeting in Regina. Dr. Cotton is the first eastern member of the organization to be appointed to the presidency. Formerly he was appointed to the vice-presidency of the council.

Influenza In the North

Serious Epidemic Has Broken Out In Mackenzie River District

Winnipeg.—A serious epidemic of influenza has broken out along the banks of the Mackenzie River with considerable loss of life, according to a letter received from Rev. W. B. Singleton, principal of the Hay River Indian school of the Indian and Eskimo mission of the Missionary Society of the Church of England.

The first case was reported at Slave Lake 20 days were reported. At Hay River, towards the west end of the lake, there were ten deaths. The toll of deaths at other points was thought to be even greater, the letter stated. The Manitoba Division, Dominion Department of Indian Affairs, had received no information of any epidemic in this province.

Fuller Party Reported Safe

Have Been Reprovisioned and Are Now Headed For Shores Of Hudson Bay

Regina, Sask.—Three weeks ago the John D. Fuller expedition of student geologists from Iowa into the north was safely launched on a new and shorter route to Hudson Bay. The four men, who have been almost given up as dead for the past six weeks, have been reprovisioned and given new equipment for the trail. They are now headed along the route through Neultin Lakes and smaller bodies of water and down the Thelaviva River to Hudson Bay. They are expected to emerge near Driftwood Point, halfway between Chesterfield Inlet, their first objective, and Fort Churchill.

Church Is Desecrated

St. Jerome, Que.—Vandals entered the Roman Catholic Church here and laid waste many sacred articles. Sacred vessels were thrown around the chalice and the main body of the church, while the priests' vestments were torn and slashed and scattered around the edifice. A chalice containing the Host was broken to pieces.

Hope For Peaceful Relations

Kellogg Peace Pact A Revolutionary Policy Among Nations

Wausau, Wis.—Within a fortnight of the date on which the international treaty for outlawing war is to be signed, President Coolidge declared before the Wisconsin State American Legion here, that the Kellogg pact "holds a greater hope for peaceful relations than was ever before given to the world."

The President maintained that by taking a leading position in securing this agreement, the United States proved its pacific inclinations toward all nations.

"We have demonstrated," Mr. Coolidge declared, "that when we have said we maintained our armaments, not for aggression, but purely for defence, we were making a candid statement which we were willing to verify by our actions."

The President said that while "it would be too much to suppose that war had been entirely banished, yet a new and important barrier, reasonable and honorable," has been created to bar it.

"This agreement proposes a revolutionary policy among nations," he said. "It holds a greater hope for peaceful relations than was ever before given to the world. If those who are involved in it, having started it, will finish it, its provisions will prove as the greatest blessings ever bestowed upon humanity. It is a fitting consummation to the first decade of peace."

To Take Care Of British Harvesters

Effort Will Be Made To Provide Permanent Work Throughout Winter

Saskatoon, Sask.—If the British miners who are coming to the west to work in the harvest fields do not obtain permanent work throughout the winter it will not be the fault of the railway companies or want of effort on their part.

No stone will be left unturned to try to keep these men here and in the opinion of T. Devlin, local manager of the Canadian National colonization department, future immigration from the British Isles depends largely on the success or failure of this venture.

Mr. Devlin said that he could see no reason why the project should not prove an outstanding success. "The men who are coming are by no means strangers to hard work and they know just as much about farm work as the average harvesters from Eastern Canada," he says.

Expedition Well Equipped

Commander Byrd's Antarctic Venture May Cost One Million Dollars

New York.—The Antarctic expedition of Commander Richard E. Byrd, which is to start from this port this week, will be the most extensive expedition in the history of exploration and may cost one million dollars.

At the expedition's headquarters here, it was said the cost would be less than \$500,000, and before the expedition returns to this country may reach \$1,000,000.

Contributions received to date include \$435,000 worth of equipment and \$237,543 in cash.

The total expense of Commander Byrd's North Pole expedition in 1926 was \$140,000.

SPIRITED FIGHT ON LAKE ERIE WITH RUM FLEET

Buffalo.—The struggle for supremacy between the rum running fleet on the Niagara River and Lake Erie, has been intensified by the fact that government boats set afire and sank one craft and captured two others carrying contraband liquor and ale.

At Niagara below the Falls a speedy boat carrying many cases of both whiskey and ale fell into the hands of the federal patrol.

Earlier in the day the C.G. 121 sighted a suspicious looking craft on Brocton, on Lake Erie. A chase followed during which the government boat fired 30 rounds.

After the gun fire had set the rum runner ablaze the coastguard boat took off the crew of two men and stood by while the damaged craft drifted to the shore.

The other boat was caught on Lake Erie, off Barcelona. Three hundred rounds were fired at it before the crew decided to heave to and surrender. Two men and a small quantity of liquor were found.

MANY NATIVES IN NORTH SUCCUMB TO 'FLU EPIDEMIC

Edmonton.—Scouring the population along the banks of the Mackenzie River, the influenza epidemic which has been raging in the North for some time has taken a toll of 275 of the native population within a period of a couple of weeks, according to a report received in Edmonton.

As far as is known only one white man has succumbed to the disease.

A total of 53 are now known to have succumbed at Fort Simpson alone, according to a radio message received by Jack Stewart, a trapper at that post. The message was sent by a man named Stevenson.

The full toll of the deaths caused by the disease may not be known for months until police patrols and trappers returning to their lines among the hills and barren land find together with their occupants possibly all dead.

The points along the Mackenzie that have been badly hit are: Fort Resolution, with 50 deaths; Fort Simpson, 53; Fort Rae, 33; Fort Norman, 28; Fort Goodhope, 25; and Fort McPherson, 21. Deaths at other points have also been heavy.

Northmen say that the natives are apathetic when attacked by the disease, sitting moaning and wailing in their camps and cabins instead of making an effort to fight the sickness.

They throw away the drugs given them by medical men and missionaries because it does not effect an immediate cure and wait patiently, either to die or to recover.

Only one white man has died in the North from the disease so far as has been reported.

All Bitterness Forgotten

Remarkable Tolerance Is Shown In Irish Free State

Victoria, B.C.—Right Hon. Hugh Kennedy, chief justice of Ireland and honorary member of American and Canadian Bar Associations, was the guest-speaker at the Canadian Club luncheon here.

"We had a fight with England but that fight terminated in a treaty of peace, and a reconciliation was making an effort to fight the sickness. They throw away the drugs given them by medical men and missionaries because it does not effect an immediate cure and wait patiently, either to die or to recover. Only one white man has died in the North from the disease so far as has been reported."

He said that the Free State had shown a remarkable degree of tolerance with the rest of Ireland never entering into politics. As an example, he referred to the fact that the minister of finance was a Presbyterian from an Orange county.

Aerial Sham Warfare

Two Accidents Was the Result Of The 'Manoeuvres Over London

London, Eng.—The aerial sham warfare over London, in which hundreds of planes have been engaged for four days, was marred by the first two accidents of the manoeuvres. No one was hurt.

Flying Officer L. C. Bennett was forced to jump in a parachute when his plane burst into flames over Richmond. He landed safely on a house top. A "raiding" bomber, engaged in an attack on London, made a forced landing in a field and was damaged, but the pilot and observer escaped without a scratch.

Recognition Of Ecuador

United States Now Convicted Of Country's Good Intentions

Washington, D.C.—The United States has accorded complete recognition to the Government now functioning in Ecuador, the State Department announced.

Secretary of State Kellogg has informed the Ecuadorian Government by note that beginning immediately the United States, convinced of Ecuador's good intentions to return to a constitutional form of government which it abandoned in 1925, accords recognition to the present regime.

Montreal Garment Workers Quit

Montreal.—Twelve hundred employees and 70 work shops in Montreal are affected by the present "sit-down" strike of the members of the Amalgamated Clothing Workers of America. It is not spoken of as a strike by union officials because not all the shops of the city are affected. Speedy termination of the dispute is expected.

W. J. BARTLETT, PUBLISHER

Blairmore, Alta., Thurs., Aug. 23, 1923

CANADA'S MUNICIPAL YEAR BOOK

A most valuable work of reference has just come to hand, in the form of the Canadian Municipal Directory for 1923-24, which is the third annual edition, having been established in 1927. This volume is alone in its field and fills a long felt want.

The contents of the book have been standardized throughout and the alphabetical arrangement makes the information contained therein easily accessible. In the introduction, the point is made that there are 4300 self-governing communities in Canada with 50,000 officials engaged in conducting the affairs of these many cities, towns and villages. It comes as a surprise that there are so many individual urban and rural communities and there is undoubtedly great credit due to the editor, Mr. H. W. Wise, for the excellent manner in which this vast amount of material has been collected together, and so carefully classified.

The contents of the book are so arranged as to give municipal men the most comparative information and cannot fail to be of the greatest assistance to elected and appointed officials, enabling them to compare our community with others of a similar size and population. It is further a book of considerable importance in every municipal office for no other

work of this kind is published in the Dominion, and no man interested in municipal progress can afford to be without it.

The book is divided into three chapters, the first being an alphabetical directory by provinces of municipal men from coast to coast, the larger places having a full municipal personnel included and the rural communities, the chief officials.

Part two deals with particulars of a reference and comparative nature, and provides the best and most complete information on the financial standing of communities, and also gives tabulated information on the very important question of water works. There are also a number of leading articles that supply a fund of useful knowledge on several different subjects, all applicable to municipal endeavor.

The third part of the book is devoted to a Buyer's Guide for the use of municipal officers, and everything that they have occasion to require is listed together with the names of the manufacturers and dealers. In connection with this last part of the work, there is also a free Buyer's Service, which will prove of considerable assistance to municipal men.

It is interesting to note that this Municipal Year Book is to be followed up by the publication in about four months' time of a new work entitled "Municipal Who's Who in Canada," which will be an interesting biographical book of reference, profusely illustrated and constantly made use of in every busy newspaper office.

In the capable hands of this well known publishing firm, and edited by Mr. H. W. Wise, familiar to all municipal men for twenty years, it will indeed fill a long felt want.

Age of Opportunity

Oldtime Mosquito (to young mosquito): "And to think that when I was your age I could bite girls only on the face and hands."

DON'T WANT CONVICTIONS

Motor constables who are fired with a thirst for new convictions against auto drivers should take a tip from Nova Scotia officials. In that province, constables have been instructed to assist motorists, not to prosecute them, but to give absolutely no quarter to the intoxicated driver.

Nova Scotia now has a speed limit of thirty-five miles per hour instead of twenty-five, as formerly, while a rate of twenty miles per hour is permitted in business and residential sections. Cars approaching level crossings must not travel faster than fifteen miles per hour. That province has also decided to impose a penalty on those found to be making unreasonable noises at intersections.—Good Reads Magazine.

WE'RE DISCOVERED

Canada, we see by those American Newspapers which despatched special correspondents to greet the Bremen fliers, consists of a great scattered villages populated by dog-drivers and entirely surrounded by cracked ice.—Windsor Border Cities Star.

DID YOU EVER STOP TO THINK?

(By Edson R. Waite, Shawnee, Oklahoma)

Cameron Wilson, editor of the Kitchener (Ontario) Record, says: "That sympathy for dumb animals runs a close second to compassion for one's fellow creatures and a community may be measured largely by the interest it shows in the silent appeal of 'those who cannot speak for themselves.'"

The various branches of the Society for the Prevention of Cruelty to Animals have accomplished a tremendous amount in relieving the sum total of misery arising from ill-treatment, but there is still much to be done.

Cruelty is to a great extent a matter of thoughtlessness, although there are unfortunately instances of deliberate maltreatment of dumb creatures unable to protect their wrongs.

Enlightenment of the sympathy of children and the educative campaign carried on by the Humane Society form an important step in a movement that is growing throughout Canada and the United States. Children in whose hearts has been inculcated a love for animals and whose imagination has been captured by the divine aspect of human compassion will surely develop into men and women who will resent cruelty of all kinds. Neglect of household pets, active ill-treatment of beasts of burden, the untold miseries of trapped and suffering wild things, and barbarities of the slaughter house and the piteous cruelties of the shipping-cargoes—all of these cry aloud for redress. Man has not responded to the claims of the divine element in his make-up until he has sought to alleviate conditions that are at variance with the Will of God.

Were there an eleventh commandment it should read: "Thou shalt be kind to all dumb animals."

**RODERICK MATHESON
FORMER B.C. EDITOR
DIES IN THE ORIENT**

News has reached Vancouver of the death in Tokyo of Mr. Roderick Matheson, Japan correspondent for the Chicago Tribune.

Some twenty years ago, Mr. Matheson edited a paper at Kaslo. He went to Honolulu on a holiday and liked it so much that he never returned to British Columbia. He became editor of the Pacific Commercial Advertiser, Honolulu's morning newspaper. Later, he moved to the Orient and was editor of the Japan Times and Mail at Tokyo prior to accepting the position with the Tribune. He died after a short illness.

Weekly newspaper publishers of Alberta will hold their provincial convention in Lethbridge on September 13th and 14th, at the Marquis hotel.

CALGARY

A friend of mine visited Calgary during Stampede Week and claims to have overheard the following conversation:

Tourist—Is Calgary always like this? All these whooping cowboys, Indians and Mounties, I mean.

Citizen—Sure, sure, oh, yes. A real frontier city, this. You'll not see this anywhere else in the world. Real Indians, real cowboys, range horses. You're right in the heart of the wild and woolly.

(An interesting intermission of one hour.)

Tourist—This is great! I had no idea that these things could still be seen in the west. Why, Mexico is as peaceful as a Dutch village alongside this. This is colorful, almost barbaric. Do you think the country ever will be civilized?

Citizen (hastily)—Now where did you get that idea? Calgary is an industrial city, cultured, modern. Spap out of it, man. We just put this show on to humor the tourists. Fact is, we have to import all our riders and bad horses. 'Sa fact! Ha, ha.

Calgary Institutions: Banff, Ranchmen's Club, the Eye-Opener, E. P. Ranch, Hillhurst and Callie football clubs.

Products: H. W. Wood, Nellie McCung, Pat Burns, Ernie Richardson, and gushers, which in order of volume are R. B. Bennett, William Irvine, and Revalite No. 4.

In case you are thinking of visiting Calgary, I shall give you a list of subjects to avoid:

1. Professional hockey.
2. The 1914 oil boom.
3. The 1912 real estate boom.
4. The farmer government.

—Toronto Saturday Night.

ALBERTA COLLEGE, EDMONTON

Commemorative of the twenty-fifth year of operation of Alberta College at Edmonton, two beautiful booklets have just been issued, copies of which we have received. In the past twenty-five years there have been great achievements and no less than twenty-five thousand students have registered for courses at this pioneer educational institution. Rev. F. S. McCall, B.A., D.D., is principal, and is very well known to the people in the Crows' Nest Pass, having been for a time pastor of the only Methodist church in Canada bearing the name of Knox, at Frank.

The early history of Alberta College is intimately and closely associated with the names McDougall, Buchanan and Riddell. The college originated in the mind of the intrepid pioneer missionary, Rev. George McDougall, who over sixty years ago had a vision of the possibilities of the development of Western Canada. Rev. McCall assumed the principalship in 1913.

**THE CLAN WILL
MEET AT BANFF**

It has been estimated that a hospital doctor walks on an average of 1 miles in a day in the course of his duties, a shop assistant 8 miles, a waiter 12 miles and a conductor 7 miles.

It is said a golf ball has been built that is guaranteed to reach a hole-in-one every time. This will probably kill the sport in golf, and in any case should put a stop to golf 'fish stories.'

*As It Has Won
Thousands*
**IT WILL WIN
YOU TOO**

WON by the supreme grace of its Fisher body lines—won by its matchless performance—won by its speed, its acceleration, its strength, its comfort—thousands have been won by the new Oldsmobile. It has taken 1,777,000 miles of vigorous testing on the Proving Grounds—long years of scientific investigation in the Research Laboratories—the inspiration of the artist and the supreme skill of the engineer—to win these thousands . . . to place Oldsmobile two years ahead in style and engineering. There is in the new Oldsmobile every modern feature—and more! Fisher Bodies built of selected hardwood and steel give strength and resilience with all of Fisher's artistry. Four Lovejoy hydraulic shock absorbers, an insulated chassis, silenced interiors—give the quiet comfort of a truly fine car. Acceleration from 5 to 25 miles in 8.5 seconds in high gear!—and—four-wheel brakes give security in every emergency. Drive it—mark the smoothness—the power—the flexibility of the new 55 h.p. precision-built, six-cylinder engine with GM-R cylinder head. Note the scores of new features, including controlled cooling, crank case ventilation, pressure lubrication, oil filter, air cleaner, fuel pump, full automatic spark and thermostat charging control. Then as it has won thousands—it will win you, too!

Answer to Correspondent
Editor, what is the correct length of a lady's bathing suit?
Girtle's answer: The Dominion censor of bathing beaches states that any bathing suit which covers the torso and has a semblance of a skirt is quite correct and within the law.
(Editor's note—Now I suppose some damphool will write in and ask what torso means.)

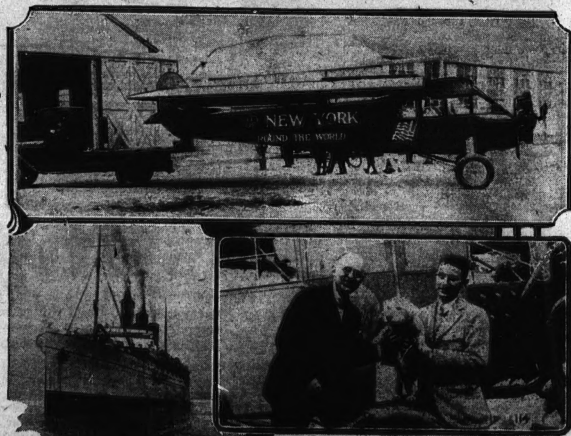

A LOCAL FISHERMAN'S PRAYER
Lord, suffer me to catch a fish
So large that even I,
In talking of it afterwards,
Shall have no need to lie.

Have a Kick
In a certain western town, a beautiful chorus girl used a rich hanker for breach of promise and was awarded ten thousand dollars. Shortly after leaving court she was hit by a street car and broke eight ribs. The same judge awarded her eight dollars.
Moral—Never play with a woman's heart—kick her in the ribs.—Vulcan Advocate.

Sweet little Emily Rose,
Was tired and sought repose.
But her brother, named Clare,
Put a pin in her chair
And sweet little Emily Rose,
They're improving.

A gentleman was walking down the street here the other day with a little boy at his side, when the boy cried out: "Oh pa! There goes the editor!"
"Hush, hush," said the father. "Don't make sport of the poor man. God only knows what you may come to yourself some day!"
Mrs. T. Barnes is assisting at the Coleman hospital during the brief absence of Dr. Borden.
He: "I think it's terrible the way girls smoke cigarettes."
She: "But you've got to admit they're improving."

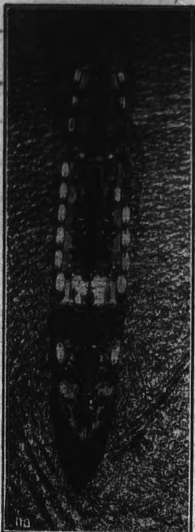

Circle the Globe

1. The Fairchild cabin monoplane "City of New York" with her wings folded at Curtis Field, N.Y., prior to being loaded on a trans-atlantic liner. 2. John H. Mears and Capt. C. B. Collier, his pilot, with the dog mascot that accompanied them in this record dash around the world. 3. The Empress of Russia which carried Mears and Collier across the Pacific with their plane "The City of New York" aboard. She was used by Mears in 1913 when he made his first world record.

Twice now, John Henry Mears has circled the world in record time. On each occasion the Canadian Pacific liner "Empress of Russia" has enabled him to beat all former records. Twenty-three days before his plane "The City of New York" landed at Curtis Field, L.I., Mears and his pilot, B. D. Collier, flew 700 miles out to sea and landed aboard the ship that conveyed him to France. Arrived in Europe, he flew from Cherbourg to Yokohama and boarded the "Empress of Russia" at Kobe, where the white liner waited ready to dash across the Pacific to Vancouver. From Vancouver to New York was covered by Mears' monoplane, which he carried with him on board. In his first article Mears prophesied success for himself and his companion because "the Canadian Pacific liner 'Empress of Russia' brought me luck when I broke the record in 1913 and I look on it as a good omen that she is to help me break the record again." He succeeded in breaking the record even better than expected, the "Empress of Russia" bringing him in a day ahead of schedule, enabling him to hop across the continent in his plane and arrive at Battery Park, New York, 23 days, 15 hours, 21 minutes, and 3 seconds after he had left on his journey eastward. He sent the following telegram to Mr. H. E. Beaumont, of the Canadian Pacific Steamships at Montreal:—"Collier and I want to express our deep appreciation for the splendid cooperation we have received on our trip across the Pacific on the 'Empress of Russia.' Getting the ship in to Victoria Friday evening ahead of schedule saved us a day and we are deeply grateful."

An Empress

The Canadian Pacific liner "Empress of Australia" in Southampton Roads.
From a height of two thousand feet the giant liner looks like a toy boat although her registered tonnage is 21,660 gross and she is one of the largest liners to come up the St. Lawrence River.

Our Country

Our thought of thee is glad with hope,
Dear country of our love and prayers;
Thy way is down no fatal slope,
But up to freer sun and airs.
Tried as by furnace fires, and yet
By God's grace only stronger made;
In future tasks before thee set,
Thou shalt not lack the old time aid.
The fathers sleep, but men remain
As true and wise and brave as they,
Why count the loss without the gain?
The best is that we have to-day,
And time shall be the power of all
To do the work that duty bids.
And make the people's council hall
As lasting as the pyramids.
Great without seeking to be great
By fraud or conquest; rich with gold,
But richer in the large estate
Of virtue which thy children hold.
With peace that comes of purity,
And strength to simple justice due,
So owns our loyal dream of thee
God of our fathers, make it true.
O, land of I nds, to thee we give
Our love, our trust, our service;
For the ethy sons shall nobly lie
And at thy need shall die for thee
—J. G. Whittier

Three Attractive Features

The annual riding and camping expedition of the Trail Riders of the Canadian Rockies has many attractive features, but at the top of the list were undoubtedly the three charming maidens photographed above who took part in a 250 mile ride, joining up with the main group that visited the Lake of the Hanging Glaciers. They are Klitty Miskey, Betty McCullough and Betty Hall, all of Philadelphia.

PRACTICALLY

A practically noiseless icebox,
Making practically heatless ice,
Was sold by a first-class salesman
At a practically profitless price.
It was bought by a brisk young housewife,
(And her practically helpless spouse),
And stood on the rear verandah
Of a practically paid for house.
It shone with surpassing whiteness
That practically naught could mar,
And shared its owner's affection
With a practically faultless car.

But once, with the heat at 90,
Which was practically in the shade,
The ice-box was left open
By the practically full-time maid.

From the practically silent icebox,
Such frigid aephyrs blew,
That a cold wave swept the country,
That is practically almost true.

—Spokane Spokesman-Review

A little girl, aged three, had been left in the nursery by herself, and her brother arrived to find the door closed.

"I wants to tum in, Cissy," said Tom.

"But you can't tum in, Tom."

"Well, I's in my nightie-gown, an nurse says little boys musn't see lit le girls in their nightie-gowns."

After an astonished and reflective silence on Tom's side of the door, the miniature Eve announced triumphantly: "Now you tan tum in, Tom; I've tooked it off."

Canned Tomato

"I contend," said the counsel for the defence, "that a tomato, however well aimed, could not have caused a black eye."
"But it was in a tin, sir," replied the witness.

When He Winked

A parson, who was finishing a round of golf, got bunkered at the eighteenth. In the process of extracting his ball he got some sand in his eye.

The eye continued to trouble him when he went into the clubhouse and ordered a glass of milk.

When he tasted the beverage, he looked sharply at the steward and said: "Is this milk?"

"Well, sir," grinned the steward, "naturally I put a dash of rum in it when you winked."

Tactless of Her

"George," she asked, "if we were both young and single again, would you want me to be your wife?"

"Now my dear," he absent-mindedly replied, "what's the use of trying to start a quarrel just as we have settled down to enjoy a quiet evening?"

A lady entered Scott's grocery a few days ago and enquired: "Can you tell me if there are vitamins in lettuce?"

Joe: "Well, mum, there's liable to be a few insects on mos garden trucks, but there ain't no reason in dis world why you can't wash 'em off if you've a mind to, mum."

A man lay in the road surrounded by what was originally an automobile. His face was cut and his clothes were torn. The auto was a total wreck. A passing machine stopped and a man got out. Leaning over the prostrate man, he asked, "Have an accident?"

Faintly the reply reached him: "No, thanks. Just had one."

He: "I want some loving. Let's take a spin in my car."
She: "Sir, I am not a spinster."

Ramsay MacDonald Tours Canada

Group taken aboard the Canadian Pacific liner "Empress of France" on the arrival of the leader of the British Labour Party, J. Ramsay MacDonald and his three daughters, Isabel, Joan and Sheila, for a six weeks tour of the Dominion. Left to right: Joan MacDonald, Isabel, youngest member of the L.C.C., Captain Griffiths, commander of the "Empress," The Right Hon. J. Ramsay MacDonald, and Sheila, Rt. Hon. Ramsay MacDonald and his daughters will tour Canada, visiting Banff, Lake Louise, Vancouver and other Western points and sail for England in September on the "Empress of Australia."

RED ROSE TEA "is good tea"

Red Rose Orange Pekoe is the finest tea in the best package—Aluminum

Canada To The Fore

The breaking of records by Canada is becoming a commonplace. It is indeed an off year when, in some branch of human activity and endeavor, this young Dominion does not attract world attention to itself by some new and startling achievement.

Prior to the war, Canada was hardly known, even as a name, to the vast majority of the peoples of Europe, and those who recognized the name had but slight knowledge of the country. To most of the world, Canada was one of the colonies which Britain had scattered here and there over the face of the globe, but which was of little value and of still less importance in world affairs.

In the war Canada made a name for itself, and other nations were suddenly made to realize that there had arisen in the western hemisphere a nation which already was helping to write history in large and impressive characters and was destined to have a profound effect upon international relations, political and economic. Canada's war effort served, perhaps as nothing of a less spectacular nature could have done, to turn the attention of the people of the United States northward, and awakened them to the fact that the whole of North America was not to be found within the confines of the republic; that, on the contrary, a second American power was rapidly developing at their very doors.

Since the war the reality of this fact has year by year been emphasized. Long the world's greatest exporter of wheat, the United States has seen Canada pass it and secure that title by a wide margin. Within the past year or two, the United States has been forced to also relinquish to Canada the distinction of being the world's largest manufacturer of paper. Steadily, year by year, Canada has been passing other countries in the production of gold and is now within measurable distance of overtaking the United States and assuming second place in the world.

Contributing a volume of only minor importance to the total trade and commerce of the world a bare generation ago, Canada is now one of the world's greatest traders, a factor to be reckoned with in all the markets of the world. Before the war, dependent upon the money markets of Great Britain and the United States to finance its many undertakings, Canadians today are able not only to finance their own country, but to an ever increasing extent are financing huge undertakings in other countries, while at the same time rapidly buying back into full Canadian control many large corporations of this country which in years of our financial immaturity were financed and controlled by British and United States capitalists.

The war, and Canada's significant participation therein, also had the effect of raising the international status of the Dominion, giving it not only a status of equality with Great Britain and the Empire, but the rank of a nation in the council of nations. The refusal of the United States to join the League of Nations undoubtedly had the effect of the more directly focusing attention upon the North American nation which did join, and placing Canada in the forefront in the League membership.

And since destiny thus called upon Canada to play its part in the International arena, this Dominion assumed the responsibility with dignity and real effectiveness. Its place around the council board at Geneva has been no minor nor insignificant one. Rather, Canada has wielded an influence possibly out of proportion to its present population, but in keeping with the growing importance which other nations now attach to this Dominion.

Having thus moved out into the great international arena, Canada this year decided to be worthily represented at the Olympiad, the great meeting place of the athletes of the world. Despite its small and widely scattered population, this young Dominion dared to try conclusions with the much more numerous representatives of other countries in the field of sport and athletic skill and endurance. And again Canada surprised the world. The sons and daughters of the Dominion carried the flag of Canada to victory time and time again, winning many of the premier events. A Canadian school boy, Percy Williams, of Vancouver, achieved the double victory of winning the 100 metres and the 200 metres race, regarded as classics of the great meet. Ethel Catherwood, a Saskatchewan girl, won the high jump and in doing so established a new world's record. A quartette of Toronto girls also broke the world's record in winning the 400 metres relay race. Considering the number of events in which the Canadians participated, no other country in the world approached their record.

Canada's future is assured when it can produce virile and courageous young men and women of the stamp of its representatives in the Olympic games, and in the hands of such youth its position as a great agricultural, mining and manufacturing country, as a leader in world finance, and as an arbiter in international relations, is assured. Canada is coming into that proud position which Nature intended her beautiful endowments intended it should occupy, and if the Canadian people continue to regard each new achievement as an incentive to still greater effort and enterprise, another generation will see their Dominion occupying a world position second to none.

National Radio Chain

Broadcasting Companies To Improve Quality Of Radio Programs

A national chain broadcast organization, divided into two sections, will commence operation about September 1, it was announced in Toronto, by R. W. Ashcroft, who has been appointed manager of the new firm formed Trans-Canada Broadcast Company.

Mr. Ashcroft said the organization of the company was the outcome of a suggestion by P. J. A. Cardin, minister of marine and fisheries, that an effort be made by Canadian broadcasting companies to improve the

quality of domestic radio programs.

Key stations of the new organization will be located in Winnipeg and Toronto.

Stations in Montreal, Ottawa, Kingston, Hamilton, London and Quebec, will be linked up with the eastern section and stations in Saskatoon, Regina, Edmonton, Lethbridge and Vancouver with the western section.

Russia and Peace Pact

Foreign Minister Of Soviet Republic Refers To Failure Of U.S. To Invite Russia To Sign

George Tchitcherine, foreign minister of the Soviet Republic, issued a lengthy statement to the newspapers hinting at the necessity of the Soviet being one of the original participants in Secretary of State Kellogg's anti-war treaty.

Tchitcherine said the United States' failure to invite the Soviet to sign the pact indicates "a desire to make the pact an instrument of isolation and struggle against the Soviet."

The statement asserted that the pact was incapable of preventing wars "because it does not provide for obligatory disarmament."

Charity covers a multitude of sins and should be allowed to remain uncovered.

Will Need Trained Voices

Talking Movies Will Have To Be Pleasing To Audience

The "talking movie" is just now being much talked about. Producers think it will greatly increase attendance on the pictures. That may be so, but it won't unless movie actors and actresses learn to speak as well as to "register emotion."

A voice has as much personality as a face, perhaps more. As long as it is not allowed to interfere with the face, all goes well; but when the face on the screen is fascinating, and the voice uncultivated and feeble, the contrast makes the audience either uncomfortable or amused. Neither state of mind is good for the box office.

Imperial Oil Development

Spending Million Dollars In Improvements To Regina Plant

When two new storage tanks to be built by the Imperial Oil Company for the plant at Regina are completed, the company will have spent something very close to \$1,000,000 in improvements within 12 months.

Last year the company spent \$750,000 in plant equipment. This year a road oil making plant has just been completed at a cost of \$50,000. The two new storage tanks, both of them 120 feet wide, every way by 42 feet high, will cost something like \$150,000.

Girls and Women NEED RICH BLOOD

This Lady Found Dr. Williams' Pink Pills A Friend Indeed

Just because she is a woman there are times when a girl needs a little help and strength in the form of a blood-building tonic.

To thousands of girls and women Dr. Williams' Pink Pills have proved a blessing because they enrich the blood, give strength and restore vitality to the aching nerves. The anaemic girl who is languid and pale; the girls whose back feels like a breaking; the nation whose health falls as she reaches middle age—for all such sufferers Dr. Williams' Pink Pills are invaluable because ill-health in girls and women is usually caused by poor blood or insufficient blood.

These pills have proved a blessing to thousands of others, why not you? At various stages of life Mrs. G. R. Lake, Walton, N.S., has proved the value of Dr. Williams' Pink Pills. She says: "I first used these pills when a young girl, for it is during the teen age when nature calls upon every bit of the reserve strength we have, that we need their rejuvenating help. It was then I found Dr. Williams' Pink Pills a friend indeed. And again now that the girlhood stage is past and I am a mother of four children, subject to all the cares and worries of the home, Dr. Williams' Pink Pills is the only tonic I take to keep up my health and strength, and they have never failed. Should any ailing girl or weary mother, due to my advice try these pills, I know they will find them as equally good as I have done."

You can get these pills from any medicine dealer or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Saskatchewan Wheat Pool

The Saskatchewan Wheat Pool report an increase in acreage signed up for the new five year contract period, 1928-1933. They report 85 per cent. of the old contract holders signed to date, also a large number of new contracts.

A Remedy For Earache.—To have the earache is to endure torture. The ear is a delicate organ and few care to deal with it, considering it work for a doctor. Dr. Thomas' Electric Oil offers a simple remedy. A few drops upon a piece of lint or medicated cotton and placed in the ear will do much in relieving pain.

First Maid: Your fiancee stutters quite a bit, doesn't he?

Second Maid: Yes, but it doesn't matter. After we are married he won't have a thing to say, anyway.

HELPED DURING MIDDLE AGE

Woman Praises Lydia E. Pinkham's Vegetable Compound

Sarnia, Ont.—"I am willing to answer letters from other women, to tell them the wonderful good Lydia E. Pinkham's Vegetable Compound did me. I cannot be thankful enough for the benefits I received during the change of life. I do housework and my troubles made me unfit to do it. A friend advised me to try the Vegetable Compound. I felt great relief at once, began to regain my appetite, and my nerves got better. I will recommend your medicine to all with troubles like I had."—Mrs. JOHN BENSON, 162 N. Christina St., Sarnia, Ontario.

DON'T suffer headaches, or any of those pains a tablet of Aspirin can end in a hurry! Physicians prescribe it, and approve its free use, for it does not affect the heart. Every drug-gist has it, but don't fail to ask the druggist for Bayer. And don't take any but the tablets that are stamped with the "Bayer Cross."

Growing More Potatoes

Greater Acreage Was Planted To Tubers In Canada This Year

Two per cent. more acreage was planted to potatoes in Canada this year than last, according to the Dominion Department of Agriculture. All provinces report a slight increase in acreage with the exception of Saskatchewan and British Columbia. Conditions of crop are favorable throughout the Dominion, according to reports.

Miller's Worm Powders, being in demand everywhere, can be got at any chemist's or drug shop, at very small cost. They are a reliable remedy for worm troubles and can be fully relied upon to expel worms from the system and abate the sufferings that worms cause. There are many more that rejoice that they found available so effective a remedy for the relief of their children.

Frown On Reckless Flying

Ban Placed On U.S. Army Airmen Doing Daredevil Stunts At Exhibitions

A ban was placed today on United States army aviators participating in exhibitions of dare devil stunts, such as wing walking and performances of a similar nature.

"This does not, of course, apply to legitimate flying acrobatics at proper exhibitions," explained Army Air Secretary Davidson. "But merely to exhibitions such as trapeze work, wing walking, changing from one plane to another in the air, transferring from automobile to airplane and stunts of that character."

Sweet and palatable, Mother Graves' Worm Exterminator is acceptable to children, and it does its work surely and promptly.

Deny Responsibility

Reject Charge That Catholic Clergy Responsible For Murder Of Oregon

Bishop Miguel De La Mora, in behalf of the episcopal sub-committee, has issued a statement rejecting the charge that the clergy was responsible for the murder of president-elect Oregon.

He declared the fact that one Catholic priest and one nun were involved in the crime did not mean that the clergy as a body was responsible. The statement asserted that it was publicly known that the Mother Superior, Concepcion Aceda de La Lata, was mentally deranged and that several cases of insanity have been reported in her family. The mother superior was named by Jose De Leon Torres, the slayer, as having indirectly influenced him.

Secure Grazing Lease A lease for grazing purposes of 51,807 acres of land northwest of the South Saskatchewan river, has been granted the Home Ranch Company, Ltd., of Bow Island, Alta.

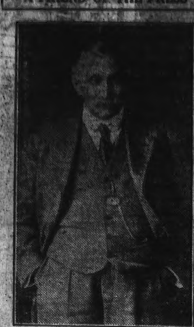

Greyhounds are perhaps the oldest known type of dog. Some carriages dating back to about 400 B.C. show figures of these graceful animals.

It's more than a problem in geometry to square the eternal triangle.

When a small boy isn't doing anything else he eats something.

Minard's Liniment For Blistered Feet.

A FRIEND OF THE PRESS

F. E. TRAUTMAN
Press Representative, Canadian Pacific Railway

Newspaper editors and proprietors from the Great Lakes to the Pacific Coast, comprise quite a large fraternity, and to know each and every one individually means a fairly large acquaintance.

Mr. F. E. Trautman, C.P.R. Press Representative, will possibly tell you that he has more than a nodding acquaintance with all the old-timers and most of the men who have more recently entered the newspaper field in Western Canada. Quite a few years have passed since Mr. Trautman quit the editorial chair of the Fort William Times-Journal, to enter the service of the Canadian Pacific Railway in its present capacity. During the intervening time he has cultivated and held the friendship of the newspaper men throughout Western Canada, in particular and Eastern Canada as well. Mr. Trautman's outstanding characteristic is his geniality, and the whole-souled interest he has taken in the welfare of the press is proverbial.

He has been ever present at annual gatherings of the Manitoba, Saskatchewan, and Alberta weekly newspaper associations, and has contributed in his own way, and in a large measure to the success of these conventions.

Medicine Hat Canneries

Machinery is now being installed in the plant purchased by the Broder Canning Company and tomatoes and fruit from the Medicine Hat area and British Columbia will be canned there this fall.

Reduced By Asthma

The constant strain of asthma brings the patient to a dreadful state of hopeless exhaustion. Early use should by all means be made of the famous Dr. J. D. Kellogg's Asthma Remedy, which more than any other acts quickly and surely on the air passages and brings blessed help and comfort. No home where asthma is present in the least degree should be without this great remedy.

Hope is one of the greatest things in life.

And if a little will be added to it the result is achievement.

Minard's Liniment—a reliable first aid.

The value of the production of the fisheries of Canada for the year 1927 was \$40,460,600.

Eveready COLUMBIAN

It takes skill to build things to endure. Anyone can build a battery—but only Eveready can make a Hot-Shot!

30 years of experience have taught Eveready how to put the longest life into batteries for farm ignition. From the current-making materials to the waterproof steel case, every feature of these famous power plants is rigidly tested by highly trained chemists, engineers and battery builders.

Each battery bearing the name Eveready bears a full guarantee of satisfaction. Remember, if it's not an Eveready, it's not a Hot-Shot.

pipes. One night, while he was strug-
gling about the room, skirling for a
few was worth, his wife attended a
mild and very belated protest. "That's
an awful noise you're making, Jock!"
Jock sat down and took off his nine
boots, then resumed his playing in his
stockinged feet.**THE PASS FIFTEEN YEARS AGO**

(The Blairmore Enterprise, 1913)

June 13.—At Monday night's meet-
ing of the town council, Capt. W. A.
Beebe, as councillor, submitted an es-
timate for grading Victoria Street
from Ninth Avenue to Fifth Avenue
and Fifth Avenue south of the rail-
way, together with concrete sidewalk,
ten to twelve feet in width, from the
Alberta hotel corner to the corner of
Ninth Avenue, the figure being
roughly \$1500.Rev. W. H. Irwin, of Bellevue, was
married at Calgary on June the 1st
to Miss F. Booth, of Toronto.Edward Coupland, of Bellevue, was
married at the home of Albert Pad-
gett, Bellevue, on Saturday last to
Miss Mary Ann Billson, of Notting-
ham, England.In Blairmore if you go to a bar-
ber you get a close shave; if you go
to your mother-in-law's you get alarm-
ed; if you go to the lipitor store you
get soaked; if you go to the millin-
ery's you get trimmed; if you go to
the tailor's you get fits; if you go to
church you get saved, and if you don't
go to church you get — oh, gee,
it's hard to say!Peter Smith a colored cook, died on
Wednesday and was buried in the
Blairmore cemetery on Thursday.The marriage of Miss Etta Latta
to Mr. Lawrence Cleland, both of
Cowley, was solemnized at Fernie by
Rev. H. Dimmick on Thursday.The law firm of Campbell & Gillis,
of Macleod, are opening a branch of-
fice in the Budd block here with Mr.
J. E. Gillis in charge.W. A. Chester has severed his con-
nection with the Rocky Mountain
Cement Company and will leave in a
few days to take a position with the
Edmonton Portland Cement Company
at Marlboro.The heaviest rain and hail storm
of the year visited this section yes-
terday. A real cyclone is reported to
have hit Lethbridge, uplifting a num-
ber of buildings and damaging win-
dows, chimneys, etc.Ed. Royle met with an accident in
the Bellevue mine on Monday night,
being thrown down No. 45 chute.The marriage of Elias Litherland
to Miss Eleanor Jolly, of Wigan, Lan-
cashire, England, took place at the
home of Edward Litherland, Maple
Leaf, on Saturday.James Callan, genial proprietor of
the Bellevue hotel, met with a pain-
ful accident on Friday, when a horse
he was driving took fright and threw
him out of the buggy. His injuries
are not serious.The officers of the Blairmore Order
of Owls were installed on Sunday af-
ternoon as follows: A. Bower, past
president; J. W. Gresham, president;
W. J. Bartlett, vice-president; Robert
Smallwood, treasurer; W. L. Evans,
secretary; S. Trono, warden; W. Gil-
son, invocator; E. Smallwood, porter,
and J. Sartori, sentinel.June 27.—Blairmore's tax rate for
the year 1913 has been set at 25 mills,
being 15 for school and 10 for town.At the council meeting on Monday
night, Councilor A. McLeod asked
why it was that the chief of police
was permitted to act as foreman on
roadwork and at the same time wear
police uniform. He claimed it gave
the average passer-by the impression
that those working under him were
convicts. At the same meeting Fred
Doubt complained of the streets be-
ing monopolized by automobile own-
ers.Arthur Pelkey, charged with man-
slaughter in connection with the
death of Luther McCarthy, has been
acquitted.J. E. Smith has been elected pres-
ident of District 13 of the U.M.W.

gary.On the following Sunday, the pas-
tor will officiate.**ST. LUKE'S CHURCH**Rev. A. D. Currie will conduct ser-
vices on Sunday next, 26th August,
at 7 p.m.**COWLEY HAPPENINGS**Mr. and Mrs. Grant Smith, of the
Royal Bank, have returned from a
trip to the coast.Miss Helen Faull, of Twin Butte,
has returned home after spending
several days the guest of the Misses
Morrison.Miss C. C. Clare, of Winnipeg, who
spent a few days here, the guest of
her sister, Mrs. Grant Smith, and
family, has returned home.On Tuesday and Wednesday, rain
continued to fall, holding up wheat
cutting and seeding of fall wheat.
The fall wheat in this district is a
good average crop and is mostly har-
vested. All other field crops are
looking well, while haying is in full
swing.Mrs. Hunt, of Iron Springs, for-
merly a resident of this district, has
returned from spending several days
renewing old acquaintances. During
her stay here she was guest of Mrs.
Bouthillier and Mrs. Fred Tustian,
who accompanied her back to Iron
Springs for a short return visit.The following is a list of the names
of officers elected at the conference
of the Pincher Creek and Rocky
Mountain constituency of the Wom-
en's Institute, which took place at
Cowley on Thursday, August 9th:
Convention—Mrs. C. Staunton, Lund-
brock; secretary—treasurer—Mrs.
Blanchard, Burnis; education and
better schools—Mrs. Duthie, Pincher
Creek; household economics—Mr.
Fortier, Cowley; Canadian industries—
Mrs. Hamilton, Beaver Mines; child
welfare and public health—Mrs. H.
C. Morrison, Cowley; agriculture—
Mrs. Arthur, Brocket; publicity—Mrs.
McDowel, Beaver Mines; legislation—
Mrs. Blanchard, Burnis; immigra-
tion—Mrs. Bent, Lundbrock; Cana-
dianization—Mrs. Lees, Pincher Creek.Following is a list of the winners
at the flower show held in connection
with the conference of the Women's
Institutes of the Pincher Creek and
Rocky Mountain constituency: Sweet
peas—First, Mrs. M. A. Murphy; second
and third, Mrs. M. A. Murphy. Snap-
dragon—First, second and third, Mrs.
M. A. Murphy. Nasturtium—First,
second and third, Mrs. M. A. Murphy.
Potted fuchsia—First, Mrs. M. A. Murphy;
second, Mrs. E. Cowin. Potted
geranium—First, Mrs. W. Fortier;
second and third, Mrs. M. A. Murphy.
Foliage plant (potted)—First and
third, Mrs. M. A. Murphy; second,
Mrs. Archie Swart. Cut flowers
(bouquet)—First, Mrs. M. A. Murphy;
second, Mrs. McDowel. Special flowers
(any kind)—First, Mrs. Archie
Swart; second, Mrs. McDowel; third,
Mrs. M. A. Murphy. Begonias (pot-
ted)—First, Mrs. Archie Swart; sec-
ond, Mrs. M. A. Murphy. Canned
fruit (strawberries, quart jar, home
grown)—First, Mrs. Hammond. Cur-
rants—First, Mrs. McDowel. Goose-
berries—First, second and third, Mrs.
M. A. Murphy. The special prize for
the greatest number of entries waswon by Mrs. M. A. Murphy, while the
grand prize of \$5.00 for the branch
institute taking the largest number
of prizes was won by the Cowley In-
stitute. This exhibition was highly
commended. The flowers stood up
well in quality and made a fine show-
ing, while the canned fruits were all
that could be desired in the class.
The color being rich and flavor excel-
lent.**CARD OF THANKS**Mrs. J. R. Irwin and daughter Dor-
othy, of Cowley, wish to thank all
friends for kind expressions of sym-
pathy with them in their recent be-
reavement. Also for assistance so
willingly offered and rendered during
Mr. Irwin's illness.**CARD OF THANKS**Mrs. John Pietraszko and family,
of Coleman, and Mr. and Mrs. Joseph
Pietraszko, of Blairmore, wish to
thank their many friends for kind ex-
pressions of sympathy; for the use of
cars at the funeral, and for the floral
tributes during their recent bereave-
ment.**KEEP ON**An inch won't make you very tall,
You've got to keep on growing;
One little ad won't do it all,
You've got to keep them going.
One step won't take you far,
You've got to keep on walkin';
One word won't tell folks who you
are,
You've got to keep on talkin'.The constant drop of water
Wears away the hardest stone;
The constant gnawing "Screech Owl"
Masticates the toughest bone;
The constant cooling breeze
Carries off the blushing maid;
And the constant advertiser
Is the one who gets the trade.She: "I didn't think you'd break
your engagement with Eva; you said
she was your dream girl."
He: "She was, but I woke up."**CARD OF THANKS**Mr. and Mrs. E. Elliott and daugh-
ter Jean desire to thank the many
friends for varied kindnesses shown
during Willie's illness, and for ex-
pressions of sympathy in their be-
reavement. Floral tributes included
the following: Gates ajar—Daddy,
Mamma and Jeannie. Crosses—Mrs.
D. Fraser and Mr. and Mrs. Joseph
Wolstenholme, United Church Choir.
Wreaths—United Church Sunday
School, Mr. and Mrs. R. Dicken and
Bobbie, Mr. and Mrs. John Davis,
Leonard and Norman; Mr. and Mrs.
W. Turner, Mr. and Mrs. I. Comfort
and family, Mr. and Mrs. S. Ennis
and family, Mr. and Mrs. E. M.
Thompson and family, Mrs. Pinkney
and Roland, Greenhill Temple No. 10,

A. N. Whorlton, Hillcrest. These
would also like to thank all the chil-
dren and others who sent cut flow-
ers with no name attached.Three hundred automobiles under-
went tests in Toronto the other day,
and only 25 of the cars were found
to have brakes which were fully ef-
ficient.**ADDITIONAL LOCALS**In Turkey, a woman never sees her
husband before marriage. In Canada,
she seldom sees him afterwards.An exchange remarks: One thing
about modern fashion—a man doesn't
marry a girl "unsight, unseen."Our photographer says: Too many
of these modern flappers are under-
developed and over-exposed.The sale of liquor under the govern-
ment control system will net Ont-
ario \$8,000,000 for the fiscal year.Until a husband can obtain al-
imony by crossing his legs and ex-
hibiting his garters to the judge,
"equal rights" will be only a chime
and a delusion—Judge.A knitting frame used in the man-
ufacture of silk stockings in England
is substantially the same today as
when it was invented in the reign of
Queen Elizabeth.According to the Charlottetown
Patriot, Prince Edward Island's in-
come from potatoes for the fiscal year
ended June 30th, 1928, was \$2,113-
346, or \$500,000 more than the re-
venue from the same source the pre-
vious year.There are two kinds of discontent
in this world: the discontent that
works, and the discontent that wrings
its hands. The first gets what it
wants, and the second loses what it
has. There's no cure for the first but
success; and there's no cure at all for
the second—Gordon Graham.**THINK OF IT!**Recently a new law was put into
effect in Newfoundland, placing a
closed season on berry picking. In
certain sections of the country it is
unlawful to pick blueberries before
the 13th to 18th of August. Other
wild berries are similarly protected.

Studebaker background

STUDEBAKER

The Great Independent

WORLD HAPPENINGS BRIEFLY TOLD

Increasing alarm is being expressed over the unemployment situation in Great Britain, with 1,300,000 men out of work.

Two new brands of whisky, approved by the Ontario Liquor Control Board, have been put on the market by the commission. The varieties are styled "Commission No. 1" and "Commission No. 2," and bear the seal of the board's approval on the bottles.

Dr. Paul, chief chemical analyst for the Surete Generale, the French Scotland Yard, is reported to have detected toxic matter in the viscera of Captain Alfred Loewenstein, Belgian financier, whose death recently was surrounded with mystery.

Four men held up the First National Bank of Buxton, N.D., and escaped with between \$3,500 and \$4,500. They made their getaway in a dark Buick sedan heading east out of Buxton, which is about 65 miles north of Fargo.

Baron Von Huenefeld, owner of the trans-Atlantic monoplane, the Bremen, which Captain Hermann Koehl and Col. James Pittman piloted across the Atlantic, will make a present of the disabled plane to the projected municipal museum of New York.

Investigation of the immediate power requirements of the city of Saskatoon is to be made by a committee of the Saskatchewan Government, with a view to working out a plan under which a start can be made in the production and sale of power under central control.

Owing to inadequate steamship accommodation, it will be impossible to transport to Canada full quota of 10,000 unemployed which were to work in the Western harvest fields, according to J. Bruce Walker, director of European immigration for Canada. He states that possibly not more than 8,500 would be taken to Canada from all sources.

Lost Prospector Found

After Walking Aimlessly For 48 Days, Is Rescued By Plane

Lost forty-eight days during which time he wandered aimlessly through the dense wooded country north of The Pas, Andrew Taylor, local prospector, was found by searchers near Burntwood Lake, and brought by aeroplane to The Pas. It was a harrowing story that Taylor related to his rescuers. For days he walked through the woods in the belief that he was on his way to settlement, only to find that he was hopelessly lost.

Faced with starvation, he had killed frogs and eaten them, and at times when driven to desperation had relieved his hunger by consuming dead fish found on the surface of the river.

Later, he found a few half-rotten wild raspberries and then stumbled across a potato patch planted by an Indian. It was the uprooted tubers seen by a wandering native that gave the first authentic clue to his whereabouts.

He must have travelled 300 miles in a huge circle to reach Burntwood Lake.

The condition of the man when found by Fred Coleman, veteran prospector of Cobalt, Ont., and Capt. Keayson, who piloted the Fokker search plane, betrayed the extreme hardship and suffering which he had endured during his wanderings. His clothing was in tatters from pressing through dense underbrush, while his face was covered with blood.

Seven weeks' growth of beard covered his face, while his haggard countenance showed that he could not have survived much longer if aid had not reached him. Barely able to walk, he nevertheless showed his joy in having been returned to his wife and friends who had long since given him up for dead.

"Your nose is red. Are you cold?" "No, thirty."—Pele Mole, Paris.

W. N. 1747

Farmers' Marketing Tour

Canadian National Railways Tour To Great Britain and Denmark, 1928

(Continued.)

We were now in the home of the Clydebank, and a call by Mr. Weir, from Newcastle, in the morning had brought a pressing invitation from Messrs. A. & N. Templeton, of Sandyknowe, near Kelso, to visit them. This took a section of our party to see the great horse "Benefactor" and some of his progeny as well as the Border Leicester flock of Messrs. Templeton and here we had our first taste of Scottish hospitality. The brothers with their sisters and mother entertained us royally to a delightful tea and the "wee drappie" was not missing. Ours was a great privilege because the afternoon was lovely and from the high ground at Sandyknowe the eye can roam for twenty to thirty miles in every direction over the beautiful Scottish countryside. Our visit over, we continued our journey to Edinburgh enlivening the night with old familiar songs.

The "main body" had gone on, passing through Dalkeith at dusk, awaiting many memories for one of the members of our party, Mr. James Walker, representing the Canadian Bank of Commerce, Toronto, who was born in this pleasant Scottish town. Evening found us in Edinburgh, comfortably established in the North British Hotel overlooking the famous Princes Street.

From Melrose we had sent a challenge to meet the morning in Scotland, the aspiring rink being our friends from Deloraine, Manitoba, but unexpectedly a game could not be secured owing to its being Saturday.

Our first engagement was to visit the Clydebank Stud at Portobello, of Mr. Robert Park, owner among other notable stock of "Bruntane Again" and "Bruntane Phyllis," both of which, along with a number of fine colts, were shown for sale. Mr. Park, who was born in this pleasant Scottish town, was a member of the famous Princes Street. From Melrose we had sent a challenge to meet the morning in Scotland, the aspiring rink being our friends from Deloraine, Manitoba, but unexpectedly a game could not be secured owing to its being Saturday.

Park took us into his home, "Bruntane House." Here Mrs. Park and her daughters entertained us to high tea. The evening found us at a committee meeting was said to have been held when the Union of Scottish Farmers' Association, founded in 1707. The room is eight-sided and contains a 14th century fireplace. But all eyes were turned to the great table on which were two Cow-Cups, both won in the same year, by the same man, the late Mr. James V. of Scotland, afterwards First of England.

A trip to the famous Fort Bridge, reminding us so much of our own Quebec Bridge, completed our first day in Edinburgh. Leaving for Stirling at 8 a.m. en route for Perth, we were treated to a taste of Highland weather, for snow began to fall by the time we reached Stirling. Castle, the old Scottish stronghold, perched high on a dominating rock overlooking the plain beneath it, was a sight to behold. Seen through a Scottish mist and falling snow, it was doubly fascinating, with its battlements and towers. From the view of the field of Bannockburn. Taken and retaken, this grey building, calm and lonely, has withstood many sieges. Within its walls were born James II, IV, and V, of Scotland, and James VI, of Scotland, afterwards First of England.

We walked the courts and trod the battlements. We examined with some wonder the window of the Douglas Room where the rebellious Stuart was stabbed to death by James II, in 1452. We left with the influence of these directly stirring times still upon us to view in front of the castle the noble statue of Robert the Bruce, where his voice thrills through the air, a small boy with his sister told us of Scotland's glorious days, exclaiming in this guide to the castle itself.

Next we came to the wonderful Wallace Monument, a great granite tower, four square, 220 feet in height and standing 620 feet above the level of the Forth. In a niche on the west corner stands a bronze statue of Wallace, measuring 15 feet from head to helmet, to the tip of the sword 21 feet, and raised 50 feet above the doorway—a noble figure, sword on high, summoning his followers. Those of us who climbed the inside spiral stairway of 248 steps were amply recompensed. The inner chambers are noted among other things for a wonderful echo and in one of them, the Hall of Heroes, lies the double-edged sword of Wallace, 4 feet 4 inches long in the blade which narrows from 2 1/2 inches to 1 inch. The leather mounted hilt is 12 inches long and has a two inch pommel. For six centuries Wallace's sword lay in Dumbarton Castle, being transferred to the Monument by Hugh R. Wallace, of Glencairn Castle, his lineal descendant.

Snow still falling, we arrive in Perth, the pretty, ancient city by the Tay. Perth is not a big city but its charm is instant. Moreover it fame as a livestock centre is world wide. For many years it has been the most important centre in Britain for the selling by public auction of pedigree Shorthorn and Aberdeen-Angus cattle and our arrival coincided with the biggest sale of the year. Following lunch and a warm welcome from the Provost, we were soon watching with critical eyes the judging and street parade of cattle, noting with admiration the high average of quality prior to taking

RULING INDIAN PRINCES

Conferences are now in progress between representatives of the ruling Indian princes and of the secretary of state for India. At present only about half of India is under direct British rule, while the rest is made up of a hundred so-called independent states.

It is said that the rulers of the native free states seek to create a federation which would recognize some central authority as a first step to a larger union, which is hoped would embrace British India as one of its units. The four spokesmen for the reigning princes are: (1) the Maharajah of Kashmir, who won considerable notoriety as Mr. A. in the Robinson blackmail case; (2) the Maharajah of Patiala; (3) H. H. Sir Jagat Singh and (4) the Maharajah of Halpila. They are conferring with a committee of Englishmen, headed by Sir Harcourt Butler.

NEW YORK BANKER HEADS EXPEDITION

Mapping Unexplored Hunting Region in Canadian Rocky Mountains

A trip which has been prompted by a motive of generosity of one big game hunter to his fellow sportsmen, is now being undertaken in the Rocky Mountains of Canada by Prentiss N. Gray, president of the J. Henry Schroder Banking Corporation, New York City. The trip which will take him through what is supposed to be almost unknown country between the Peace River area and McBride, B.C., will occupy more than a month and Mr. Gray is now en route over Canadian National Railways to Grande Prairie, Alberta, to start his expedition.

The entire cost of the expedition is being borne by Mr. Gray, who is taking with him a surveyor and two assistants, a large company of guides and pack horses and a complete mountaineering outfit for the purpose of filming wild life and scenery. The purpose, explained by Mr. Gray, in a letter to S. J. Hungerford, Vice-president of the Canadian National Railways, is to secure an accurate map of this territory, which he believes to be a splendid game hunting field, and to make accessible to sportsmen a new hunting area which can be reached within a reasonable time. The idea occurred to Mr. Gray last Fall, during a hunting trip which he made into the northern section of this area and out of which he secured some fine specimens of moose, mountain goat, mountain sheep, and grizzly bear.

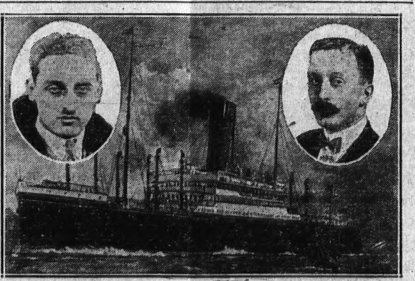

In his letter to Mr. Hungerford, Mr. Gray said: "We found a new country—that is, new to the sportsman, and I believe new also to the trapper and Indian. So far I can find no maps that even attempt to show the streams of the area as anything more than dotted lines, and most of these are incorrect."

"We reached our railroad in 4 1/2 days from the centre of this new area, although it took us 17 days to get in. This will appeal to a lot of men who now believe they must spend 20 days on the trail getting to and from their hunting camp and consequently prefer Alaska or the Cascares."

"My idea is to cut a trail into this country next August; take with me a surveyor and assistants, map the outstanding features of the country and take moving pictures of the game, which is more plentiful than any place which I have previously visited in the Canadian Rockies."

A flood of tears indicates troubled waters.

RESCUES TRANS-ATLANTIC FLYERS

Buffeted about by waves in their fragile seaplane in mid-Atlantic, Capt. Frank T. Courtney, E. B. Homer, of Montreal, son of a former Dominion wide financier, his financial backer, Fred Price, mechanic, and E. W. Gilmore, of Glasgow, wireless operator, were rescued by the Atlantic Transport liner Minnewaska a few days ago. Capt. Courtney and the other three were attempting a flight from the Azores to Newfoundland, when their machine fell in flames into the sea. By the aid of their small radio set the Minnewaska found them after she left her course to go to their aid. The Minnewaska reached New York on August 6 with the rescued fliers. Photograph shows the Minnewaska and inset left, Capt. Courtney; inset right, E. B. Homer—Photos by White Star Line.

SUNDAY SCHOOL LESSON

AUGUST 26

PAUL AT PHILIPPI

Golden Text: "Rejoice in the Lord always: again I will say, Rejoice."—Philippians 4:4. Lesson: Acts 16:10-40. Devotional Reading: Isaiah 53:9-13.

Explanations and Comments

The Second Christian Convert in Philippi, verses 16-18—Paul was greatly disturbed at Philippi by a fortune-telling maid who kept following him and Silas and crying, "These men are servants of the Most High God, who proclaim unto you the way of salvation." Professor Ramsay thinks that the slave girl's mind had become distorted and diseased by her belief in her supernatural possession, but was all the more acute in certain perceptions and intuitions, and that she had become alive to the normal influence which the intense faith of the strangers gave them.

The girl followed Paul and Silas for many days, and her reiterated chant drew a crowd of curiosity seekers. Paul was "wore troubled," and at length he turned to her, and in the name of Jesus Christ bade the spirit leave her, and, also, because of her normal, Nothing further is told about this girl whose story arouses our sympathy. One writer expresses his belief that "she would partake of the generous help of Lydia and of the other girls who were at Philippi, who would see in her no longer a bond-servant of the men who had dominated her, but a sister beloved in the Lord."

Recipes For This Week

(By Betty Barclay)

HOW TO MAKE COTTAGE CHEESE

Use freshly coagulated or clabbered milk. Skim off set. Put pan of clabbered milk in hot water and heat slowly until curd separates from whey. Be careful not to let milk become too hot or curd will be tough. Place in a strainer a piece of cheese-cloth rinsed in hot water. Strain heated curd mixture until well drained. Crush curd in a bowl with a fork. Mix with a wooden potato masher will break up lumps and give cheese a finer texture. Season to taste with sweet or sour cream, butter, salt and pepper. Finely chopped onion, parsley, water cream, celery, pimento or green pepper may be added.

RASPBERRY JUNKET WITH FRESH BERRIES

1 package raspberry junket powder.
1 pint milk.
Raspberries.
Powdered sugar.

Make junket according to the directions given on the package. When ready to serve, dust berries with powdered sugar and fill up the glasses. Whipped cream may top the berries. Fruit and berries like oranges, pineapples and strawberries should not be put into the milk when making junket, as the fruit causes it to whey. These fruits should be crushed, sweetened and placed on top as the dessert is served. Blackberries or raspberries may be put into the dessert, also canned or preserved berries, peaches or other fruits.

Goes To Experimental Farm

J. G. Davidson, Of Saskatchewan University, Receives Appointment

Announcement is made of the appointment of J. G. Davidson, M.S.A. (Saskatchewan University), M.S.A. (McGill University), to the position of assistant superintendent of the Dominion Experimental Farm at Indian Head, alling the vacancy created with the advancement of G. D. Matthews to the superintendency at the Scott farm.

Mr. Davidson comes from Kelvington, Sask., where he farms when not engaged in his university studies. He is a married man and will move his family there shortly.

Address: Winnipeg Newspaper Union, 175 McDermott Ave., Winnipeg

CHAPTER XXX.—Continued

"Here are Helmi's letters," at length said Warner; "they belong to you now. They will tell you everything. If we both get over I will take them back, after you have read them. I think it had had a wife like Helmi I would not have doubted her. I don't think I would. However I am not saying that to hurt you—no one knows what he would do. Anyway I am glad I met you, Jack. And your wife is well and so is little Lili."

"And so you see you must get through. I may, but you must, and if you do you will tell Helmi. Come on—our chance is just as good now as it ever will be."

Jack took his hand and pressed it. "Arthur, I can't tell you what I want to say—you have been a better friend to Helmi than I have."

The bridge was a fine iron one, with heavily studded pillars. Every second light was burning. The road leading to it was not much travelled, and as they walked up the long approach their feet made a strange echoing sound. They had left their blue overcoats open, showing the gray German smocks. Jack knew what he was to say in German if accosted, but their hope was that no one was on the bridge. Every step brought them nearer, and the lights ahead of them on the Holland side twinkled like the lights at home.

Jack's heart was in a strange turmoil over what he had heard. On, on—they were half-way over now... steps echoing, echoing... no sound but the gentle murmuring from the other side, gentle sounds, dogs barking... cow-bells... they must hurry... on, on... ten feet from the end now!

Suddenly from behind the last pillar stepped out a German guard, who thrust a flashlight in their faces, blinding them with its sudden gleam. At the end of his rifle a bayonet gleamed in the light.

"Halt!" he cried.

"Why do you halt us? We are honest men," said Arthur quietly.

"Give me your passports, then," said the guard, putting away his flashlight, but not lowering his rifle.

Pretending to search his pockets, Arthur moved a little, then like a tiger he sprang on the guard, grasping him around the neck.

"I told him, Jack!" he shouted. "Beat it! You're safe! Beat it!"

Jack found refuge in the trees on the other bank. There was a queer singing in his head, something driving like a swarm of bees. Then came a sudden pain in his shoulder like a

knife thrust, and looking down, he saw the blood running off his fingers. But he must see what happened. He crawled to the edge of the trees and looked back. Three guards were standing together, talking excitedly. He could see nothing of Arthur, but the smoke of rifles still hung around the pillars of the bridge. He crawled back into the trees and lay on the damp leaves, sobbing like a child. He was free; he was safe; but the loss of his friend was heavy on his heart.

CHAPTER XXXI.

It was a hot night in London in the early spring. The lights shone ghostly blue through their painted globes, and across the starless night search-lights stretched their spectral fingers, crossing, passing, converging, crossing again. Through the streets, in spite of the sombre gloom and the dangers of the night, an endless stream of people drifted, making a brave show of uniformity. The streets were crowded, the dance halls echoed with rhythmic feet, and tinkled with laughter; and although grief, fear, and a sense of loss walked with every soul in London, the sound of their ominous footfalls were drowned by laughter and singing, true to the brave old British tradition.

At Victoria Station the V.A.D.'s were assembled with their waiting stretchers, for a hospital train was about to start. The usual waiting of the great station, the jangling of the railways, blowing of horns, calling of railway officials—all the sounds multiplied by the vaulted station roof. There was the usual variegated and cosmopolitan crowd, though the dominant note was the blank of the thick-set, calm-faced Englishman; here the slim Canadian, independent and alert, actually looking for some one, and not ashamed of appearing anxious; there the blue-uniformed French officer, darting through the crowd like a gorgeous bluebird.

They are removing men on stretchers now, and the V.A.D.'s are busy. Very skilfully they manage too roll the bedcases to the stretchers and carry them to the waiting ambulances—pallid faces, all of them, some bandaged, but most smiling bravely, too, and glad to be home.

There is one V.A.D. looking very slim in her blue serge uniform who works feverishly. She is returning with an empty when she meets the waiting cases coming out of their coach, some on crutches, some being helped by companions, arms in slings; bandaged faces, but all on their feet.

She stops with a cry of gladness. "Jack, oh, Jack!" she cries, as a young man with his arm in a sling is passing "Jack—it's Eva—don't you know me?"

She threw her arms around him. "It's my only brother—my only brother," she says to his companions, who wait for her. "He is coming to a hospital case, or can you come with me? I have a flat, I can put you up. All right, wait for me inside on the first bench—I'll be through in half an hour."

Jack sat on the bench inside watching the crowds endlessly milling around him. He was surprised to meet his sister here when he believed her to be safe in Winnipeg. He wondered what had brought her to London—Eva, the luxury-loving, indolent Eva. It was strange to see her in plain uniform, carrying stretchers. But there was a high look on her face that transformed her. She looked more like the Eva he had known long ago.

Eva came for him at last and led him to the rear of the great station, where endless cars were parked, and put him into one which seemed very small and low.

"We pay a license according to wheel base, you know," she laughed; "and anyway, a car is a car, no matter how small it is. Oh, Jack, it's good to see you, and I have a bed ready for you. I've kept lots of the boys—I've been here six months."

Eva brought him to her flat in Maiden Lane, and switched on a light, revealed a luxurious living-room, all in black and silver.

"Do you like black, Jack?" she asked with evident pride. "I work all day in misery and horrors so I have to have beauty at night."

A large black velvet divan, with round black cushions occupied one side of the room, the other was black with a faint silver border—the first

Countless tests and experiments, covering a period of over thirty years, prove that aluminum is the only completely satisfactory material in which to pack tea. Red Ross tea is put up only in aluminum, and a "money-back" guarantee goes with every package.

place black and white tiles, and on the mantel were silver candlesticks and a silver wrought image of the Madonna. On the black lacquered table stood a silver basket with American Beauty roses.

A slim maid appeared with coffee and sandwiches.

"We'll have a real meal later, Jack," said his sister. "And now tell me where you have been."

"First," said Jack, "tell me how you happened to come over?"

Eva laughed. "You will wonder, I know, but I couldn't stand it after the old crowd broke up—and I guess I missed Humphrey, too, though I won't admit it, because we had a row before he left, and he said things to me I shall never forget. But anyway, everyone was knitting and making bandages, and I couldn't get into it. So I rented the house and I can live easily here on the money. I really like the work I am doing, and I love the boys—they are so brave. I bring them home with me sometimes and write their letters and listen to their stories. I have one little extra room—and really, Jack, I never was so happy in my life. Now tell me your story."

Jack told her of his capture, imprisonment, escape, his friend Arthur Warner and his escape of the thick-set, calm-faced Englishman; here the slim Canadian, independent and alert, actually looking for some one, and not ashamed of appearing anxious; there the blue-uniformed French officer, darting through the crowd like a gorgeous bluebird.

"It was not for me—it was his love for my wife!"

"Why don't you begin at the beginning. Wait, do you want to go to bed first? You look pretty white. I mustn't let you tire yourself. You see I am a pretty good doctor now, and I know how to take care of people."

"No, I am fine," said Jack; "my shoulder is nearly well again. I have had two months in the hospital with it, and I want to tell you all about it."

Jack began with his meeting with Helmi at Eagle Mines; their marriage by the magistrate; the magistrate's objections, and his showing of the newspaper report.

(To Be Continued.)

Would Solve Anastasia Puzzle

Noted Historian Believes He Has Solution Of Controversy

Dr. Edward A. Walsh, S.J., vice-president of Georgetown University, and a noted historian, believes he has in his possession a documentary solution to the Grand Duchess Anastasia controversy.

Whether it will uphold the woman now in the United States, under the protection of William B. Leeds, Jr., and known as Madame Tchaikovsky as a true daughter of the late Czar Nicholas of Russia, or brand her as an impostor, Dr. Walsh will not speculate.

He is certain the mass of documents and records which he recently brought to this country from Europe, will settle, at least in his own mind—whether or not the Grand Duchess escaped the massacre of the Imperial Russian family 10 years ago.

For the past seven years, the Jesuit priest has been conducting a historical investigation into the facts surrounding the deaths of Czar Nicholas and his immediate family. His studies have carried him to Russia, Belgium, France, Austria, Switzerland, England and Italy.

Manitoba Old Age Pensions

Pension Act Has Now Come Into Operation In Province

The Manitoba Government has by Order-in-Council brought into effect the Old Age Pension Act, passed at the last session of the provincial legislature. Beginning on September 1, pensioners whose applications have been approved by the Manitoba Workmen's Compensation Board will receive the stipulated pension of \$20 a month.

It is reported that 3,000 persons have already made application for a pension. Effort will be made to review these during the next month to determine the exact number eligible.

Under the terms of federal old age pensions legislation half the cost will be borne by the Dominion Government, while the province will meet the remaining outlay. It is estimated that \$300,000 will be required for the initial year.

All persons who have attained 70 years and have resided in Canada for 20 years and five in Manitoba qualify for a pension.

Wrigley Marathon

Four Channel Swimmers Are In the Third Wrigley Swim

Among the three hundred odd entries received up-to-date by the Canadian National Exhibition for the Third Wrigley Marathon, which carries with it to the winner the world's long distance swimming championship as well as a fair proportion of \$50,000, are four Channel conquerors.

When Gertrude Ederle set a new mark in 1924, Lord Riddell, owner of the "News of the World" made an offer of £1,000 to the first Britisher to beat her time—man or woman. Norman Denham, after three futile attempts accomplished this, swimming the distance in 13 hours 55 minutes. He is an entrant this year and is now in training at Hanlan's Island. He is a very strong swimmer and seemingly immune to cold water.

Georges Michels holds the record for a quick Channel crossing. He is a Frenchman, took second to Vierkoetter last year, and is again in Canada preparing for the hard fifteen mile grind. The distance this year is short for Michel, but he must nevertheless be considered a serious contender.

Millie Gade Corson, of New York City, was the first mother to swim the British Channel. She is one of the greatest women endurance swimmers in the world and will arrive in Toronto shortly to get accustomed to Lake Ontario.

Ernst Vierkoetter, the winner of the Marathon last year, has at last commenced intensive training and it is remarked by those who have seen him in action that he has improved his style and speed since annexing the premier prize last year.

The total entries now number considerably over 300.

Ancient Copper Mine

Remarkable Find In Reported On Isle Royale In Michigan

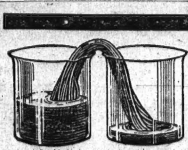

An ancient copper mine, eighty feet long and hidden 30 feet or more beneath a ledge of copper bearing rock, has been found near Hoy Bay, on the southern edge of Isle Royale, by archaeologists exploring the island. Dr. George West, Milwaukee scientist, with the expedition, advanced the theory that some early tribe of Indians, perhaps a thousand years ago, dug for the copper veins the ore that was precious to them for tokens for lance heads, arrow points and ornaments.

Demand For Irrigated Land

Evidence of the demand for irrigated land in Southern Alberta is the fact that the Canada Land and Irrigation Company find it necessary to open up another unit of the Vauxhall project to meet the demand, a step it was not planned to take until 1930.

Newsprint Production

Newsprint paper has formed over 80 per cent of the total production of Canadian paper-mills since 1917. In 1926 it was 83.4 per cent.

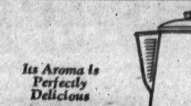

FIRESTONE WICK TEST

The jar at left is filled with Gum-Dipping solution. The other jar is empty at first. One end of the wick—made of cords used in Firestone tires—is placed in the solution, the other in the empty jar. Solution penetrates entire length of the cord wick showing that Gum-Dipping saturates the cords.

This exclusive Firestone process insulates every fibre with rubber, reduces internal friction and gives thousands of extra miles. Firestone tires cost no more than ordinary tires. Your local Firestone Dealer will gladly serve you, and save you money.

The Columbia Ice Field

New Inclusion In Extension Made To Jasper National Park

The extension of 980 square miles made to Jasper National Park, Alberta, in 1927, brought the Columbia Icefield within national park boundaries. This giant icefield, one hundred and twenty-five miles in extent, which is the mother of more than a score of glaciers, is surrounded by a galaxy of giant peaks and represents the very climax of the scenic and alpine features of the Rockies.

SUMMER COMPLAINTS

KILL LITTLE ONES

At the first sign of illness during the hot weather give the little one Baby's Own Tablets or in a few hours he may be dead. Baby's Own Tablets will prevent summer complaint if given occasionally to the well child, and will promptly relieve these troubles, if they come on suddenly. Baby's Own Tablets should be kept in every home where there are young children. There is no other medicine as good and the mother has the guarantee that they are absolutely safe. They are sold by all druggists or will be mailed on receipt of price, 25 cents per box, by The Dr. Williams' Medicine Co., Brockville, Ont. A little booklet "Care of Your Child's Health and Sickness" will be sent free to any mother on request.

Declining Birth Rate In Italy

Despite the tax on bachelors, prizes for large-families and press campaigns for increasing the population, the birth-rate in Italy is steadily declining. If it were not for the profligacy of the south the situation would be very grave. The Popolo d'Italia gives figures for many big towns, from which it would appear that in all of them deaths exceed births.

Belief, from Asthma.—Who can describe the complete relief from suffering which follows the use of Dr. D. Kellogg's Asthma Remedy? Who can express the feeling of joy that comes when its soft and gentle influence relieves the tightened, choking air tubes? It has made asthma a thing of the past for thousands. It never fails. Good druggists everywhere have sold it for years.

Little Helps For This Week

"But let us, who are of the day, be sober, putting on faith and love; and for an helmet, the word of salvation."—1 Thessalonians v. 8.

I wake this morn, and all my life Is freshly mine to live; The future with sweet promise rife, And crowns of joy to give.

New words to speak, new thoughts to hear, New love to give and take; Perchance new burdens I may bear For love's own sweetest sake.

Every day that is born into the world comes like a burst of music, and rings itself all the day through; and thou shalt make of it a dance, a dirge, or a life march as thou wilt.

—Thomas Carlyle.

Minard's Liniment for Blistered Feet.

Prosperous Indication
Federal Government Will Meet Maturing Loans By Paying In Cash

An indication of the present sound condition of financial conditions in Canada is given in the announcement that the Canadian Government Department of Finance will not find it necessary next October to do any special financing or refunding to meet maturing loans. When Government loans to the value of \$53,000,000 fall due in October of this year they will be paid off in cash. In recent years it has been customary to take care of loans when maturing by a refunding process.

Nearly 6,000,000 bicycle riders are in the British Isles this season.

The "military pace" is reckoned at two feet six inches.

Minard's Liniment—the Universal Remedy

Teeth and Health

Lensed By The Canadian Dental Hygiene Council and Published By The Booklet Division of the Health Board

THE INCISORS

You are very particular to keep these eight front teeth (four upper and four lower), white and sound, and their function, then to you, would seem largely esthetic.

But they have another use from which they take their name—that is to incise or cut.

In your child you have seen them erupt with three distinct tips or tubercles, which by and by have worn down to leave a straight cutting edge.

This nothing is a purely normal development, being due to the calcification of the enamel covering from three separate centres. Now, you have noticed too, with perhaps no little concern, that upon eruption, the two upper and lower central incisors (or cisors) seemed quite out of proportion to the size of the face, giving them an ungainly appearance.

But you must remember this—that while the face will grow larger, the teeth will not increase in size—so Nature has planned with foresight, as you might have guessed.

Now try this; consult a mirror, and note the shape of your face. To which of the three types does it incline, tapering, oval or square? Then study the form of your upper central incisor—imagine it inverted, and observe that it conforms to the shape of your face. Nature is very attentive to details, ever striving for harmony.

Remember then, that you must give redoubled zeal to the care of these incisors, which are not merely useful, but are also an asset to your appearance, if rightly cared for.

Miller's Worm Powders were devised to promptly relieve children who suffer from the ravages of worms. It is a simple preparation to destroy stomachic and intestinal worms without shock or injury to the most sensitive system. They act thoroughly and painlessly, and though in some cases they may cause vomiting, that is an indication of their powerful action and not of any nauseating property.

How Fast a Bee Flies

An experiment was once made to see how fast a bee can fly. The hive was attached to the roof of a train, which attained a speed of 30 miles an hour before the bee was left behind.

It's pretty safe to judge bank cashiers by their disappearances.

It May Be Urgent

Castoria is a comfort when Baby is fretful. No sooner taken than the little one is at ease. If restless, a few drops soon bring contentment. No harm done, for Castoria is a baby remedy, made for babies. Perfectly safe to give the young infant; you have the doctors' word for that! It is a vegetable product and you could use it every day. But it's in emergency that Castoria means most. Some night when constipation must be relieved—or colic pains or other sufferings. Never be without it; some mother can get an extra bottle, unopened, to make sure there will always be Castoria in the house. It is effective for older children, too; read the book that comes with it.

No harm done, for Castoria is a baby remedy, made for babies. Perfectly safe to give the young infant; you have the doctors' word for that! It is a vegetable product and you could use it every day. But it's in emergency that Castoria means most. Some night when constipation must be relieved—or colic pains or other sufferings. Never be without it; some mother can get an extra bottle, unopened, to make sure there will always be Castoria in the house. It is effective for older children, too; read the book that comes with it.

When your Children Cry for It

Castoria is a comfort when Baby is fretful. No sooner taken than the little one is at ease. If restless, a few drops soon bring contentment. No harm done, for Castoria is a baby remedy, made for babies. Perfectly safe to give the young infant; you have the doctors' word for that! It is a vegetable product and you could use it every day. But it's in emergency that Castoria means most. Some night when constipation must be relieved—or colic pains or other sufferings. Never be without it; some mother can get an extra bottle, unopened, to make sure there will always be Castoria in the house. It is effective for older children, too; read the book that comes with it.

Cleanse The Pores With Cuticura Soap

Rev. A. T. Wilkinson, former Alberta pastor, while suffering from a nervous breakdown, returning from Chinese mission fields, jumped from a train near Rivers, Manitoba, and was instantly killed. His wife saw him make the fatal jump.

Without printers, the teachers of the ages would have taught in vain; the dreams of philosophers would have finished with the tapers that burned for their motivations. Printing is the science of all sciences, the art of all arts, for it has opened the land of fair opportunity to the untold millions. Since its discovery and application, mankind has experienced more pleasure, greater enlightenment, larger happiness, truer liberty, than had come to it with the blind gropings and the voiceless aspirations of the countless centuries preceding.

Fourteen thousand six hundred and forty new Albertans were born in 1927.

Dr. J. F. Miller, eyesight specialist, was in town from Calgary on Tuesday.

A girl always thinks a man's heart is in the right place when it is in her possession.

Parking space isn't always a blessing. Just try getting an idea into an empty head.

Everything is going up. Time was when men talked about the well-turned ankle. Now their attention is called to the terribly-formed knee.

The appointment of Alex. Ross, ex-M.P.P., as chairman of the Workmen's Compensation Board, has been gazetted.

The advisability of doing away or not allowing any more smoke pumps on the streets is being considered by the Lethbridge city council.

WITH the superb ease of a thoroughbred that takes all in its stride, the "Bigger and Better" Chevrolet never falters in the most trying circumstances—proves its mettle on the steepest grades and in the face of the greatest obstacles.

The ruggedness of Chevrolet construction alone makes these things possible. There is no part of the engine—of the chassis—of the body that was not designed primarily for rugged endurance—put to the test again and again on the General Motors Proving Ground.

As a result the "Bigger and Better" Chevrolet steadily climbs without a halt, the steep slopes of the Rockies, and ploughs its way through the deep mud and gumbo of half-made prairie trails. In whatever conditions it may be placed, the splendid ruggedness of Chevrolet remains loyal in the service of its owner.

In long life has become proverbial—the very name Chevrolet is a synonym for strength that endures.

The "Bigger and Better" Chevrolet—rugged in form—luxurious in appointments—superbly rugged in construction—powered by the famous V-8 engine—offers solid, enduring, trustworthy performance even under adverse conditions.

No matter what the roads—no matter what the weather—at all times the "Bigger and Better" Chevrolet stays on the job.

The G.M.A.C. General Motors' own deferred payment plan affords the most convenient and economical way of buying your Chevrolet on time.
